

LOTUS GUIDE

The lotus is a symbol of purity and integrity. The leaves and flowers rise out of mud and still remain flawless. Lan Su Chinese Garden is the only place in the Pacific Northwest that you will find a lotus collection of this size and diversity!

LOTUS IN THE GREENHOUSE

Each spring, Lan Su's horticulture team remove the lotus plants from Lake Zither and take them to their "summer home" at the garden's off site greenhouse. The greenhouse provides the necessary conditions for the lotus plants to survive. Lotus plants need full sun and about 3 months of 80 degree weather in order to bloom each year. Lan Su's lotus plants are grown in shallow water in the greenhouse where daytime temperatures can reach up to 100 degrees — which the lotus love!

NEW CHINESE VARIETIES

Use this guide to identify some of the varieties of lotus in Lan Su's collection.

Ai Jiangnan

Autumn in Moling

Charming Lips
